Informed Consent for Acupuncture Treatment and Care

I hereby request and consent to the performance of acupuncture treatments and other Oriental Medicine procedures, including various modes of physio-therapy on me (or on the patient named below, for whom I am legally responsible) by Benjamin Dierauf, LAC, a licensed acupuncturist, or other members of his office.

I understand the methods of treatment may include, but are not limited to, Acupuncture, Moxibustion, Suction Cupping, Electrical Stimulation, Spooning (Guasha), Acupressure, Tui-Na (Chinese massage), Manual Therapy, Chinese or Western Herbal Medicine, and Nutritional & Lifestyle Counseling.

I have had the opportunity to discuss with the above named Benjamin Dierauf and/or with other office personnel the nature and purpose of acupuncture treatments and other procedures.

Acupuncture has the effect to normalize physiological functions, to modify the perception of pain, and to treat certain diseases or dysfunction of the body. I have been informed that acupuncture is a safe method of treatment, but occasionally there may be some bruising or tingling near the needling sites that last a few days. There have been very rare instances reported of fainting, infections and scarring. There have been extremely rare instances reported of spontaneous miscarriage and pneumothorax. There may be some bruising after cupping and spooning.

The herbs and nutritional supplements (which are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe in the practice of Oriental Medicine. I understand that some herbs may be inappropriate during pregnancy. I will notify my acupuncturist should I become pregnant or if I am trying to become pregnant (for which Oriental medicine can be very helpful). If I experience any gastro-intestinal upset or allergic reactions to the herbs I will stop taking the herbs and immediately inform the acupuncturist.

I do not expect the acupuncturist to be able to anticipate and explain all risks and complications, and I wish to rely on the acupuncturist to exercise judgment during the course of the procedure which the acupuncturist feels, based on the facts then known, is in my best interests.

I understand the clinical and administrative staff may review my medical records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

I have read, or have read to me, the above consent. I have also had the opportunity to ask questions about its content, and by signing below I agree to the above-named procedures. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
